

REEDUCA 2011, AQUANALE 2011, MEDICA 2011

End of the year is an excellent opportunity for reflections. To sum up the last quarter of 2011 - October and November were very busy months for the department of foreign trade in terms of participation in trade fairs abroad. Meden-Inmed company took part in 3 great international exhibitions and showed equipment on:

- 1) booth 015 K, during the Mondial Reeducation show REEDUCA 2011 at the Parc Floral of Paris / France / 14 - 16 October 2011 /,
- 2) booth L 048 / Hall 10.2, during AQUANALE 2011 in Cologne / Germany / 26 - 29 October 2011 /,
- 3) booth C27 / Hall 4, during MEDICA 2011 in Duesseldorf / Germany / 16 - 19 November 2011/. At this biggest and most important medical fair in the world our company took part for the second time.

We showed there our current product line, including tubs for hydrotherapy and SPA, devices for "dry hydro massage", couches for massage and manual therapie, walking simulators and many others.

We hope that these fairs will bring in the future strong new business contacts and raise brand awareness.

We were also present this year in south-eastern Europe - in Romania. We presented our equipment in the capital of this country, in Bucharest, during the 21 International Fair of Medical Equipment ROMMEDICA 2011 (31.03 - 03.04.2011).
