The catalogue contains information on, among other things, medical devices, that should be operated by qualified medical personnel and used in accordance with the user manual or label.
Remarks:

- Medical devices are marked with sign MD.
- In addition to massage tables, you will also find here other types of tables, e.g. tilting or examination and treatment tables.
- This catalogue is for information purposes and cannot be treated as a commercial offer within the meaning of Art. 66 CC.
- Manufacturer hereby reserves the right to change design that would not disturb the principal functionality and safety requirements. Despite every effort, the colours presented in the catalogue can be differ from the real due to colour printing rendition reasons.
- Images in this catalogue may contain options that are subject to a fee.
Meden-Inmed was founded in 1989 as a company employing two people. Since then, it has gained a strong market position through hard work and reliability. Initially a small distributor of a few renowned manufacturers, now a dynamic company with over 470 employees - professionals in the fields of electronics, mechanics, economy, sales and marketing.

Modern rehabilitation combines specialized knowledge with state of the art technology. We knew that when we started our own production plant in 1996 and are even more convinced of it now, when we create new products and widen our offer of medical devices each year. We make sure they are modern, efficient, comfortable and user friendly. We are always happy to see new ideas turn into new products.

Every product we have sold proves the trust our customers have placed in us. Behind every device we deliver there is a long-term relationship. Our customers consciously select a supplier that not only delivers the equipment, but can also guarantee quality and professional service. It has always been our duty and our motto.

To address the growing needs of our customers we have now expanded the range of our products. Our goal is to deliver you complete range of equipment required by professionals in the field of rehabilitation. This catalogue shows just a part of our offer. We encourage you to visit our website.

We will help you choose the best equipment that is tailored to your needs. Let this catalogue be your guide to our products. Meden-Inmed’s Team will assist you in every matter of our cooperation. We are always here to hear your voice. Your feedback is always welcome and appreciated.

Types of wheeling system:

**F0**
Composed of 2 legs with rubber feet and 2 small wheels for moving of Prestige Table by lifting it from one side. It is recommended for users who relocate their Prestige Table less frequently.

---

Massage tables

**Terapeuta SCM Prestige**

- **Round face hole with 2 types of plugs (crescent, round)**
- **Gas spring**
- **Traction support sleeve**
- **Postural drainage control switch**
- **Fold down side section (with semi-automatic blocking/release system)**
- **Add. electric actuator (in versions with Pivot)**
- **Personal Authorization Safety System (PASS)**
- **Powerful electric actuator**
- **High / low adjustment foot bar (HalloTronic®)**
- **SmartS4Arms - unique self-locking fold-down armrest (one hand operated)**
F4

Composed of 4 directional castors with central brake allows you very easy and fast relocation of Prestige Table with or without a patient.

Two-layer padding with upholstery available in many colours

Release handle for gas spring system in leg section

Foot - operated lever of F4 system

Rubber foot with 1 cm height adjustment
Years of experience

..., our individual research and passion for innovations led to creation of a stable, reliable and extremely functional table line for massage.

You can now enjoy the high quality and high functionality of Terapeuta Prestige Table Line. Just choose one of Prestige Tables which will suit your needs and the needs of your patients. We care about your opinion so if you think that something should be changed or added in the current Terapeuta Prestige Table Line please let us know what you think.

Unique features of Prestige Tables:

1. High quality upholstery!

In order to guarantee comfort of patients and high functionality for users each table has a two-layer padding with specially selected density of foams. After years of checking various upholstery samples, we finally found an upholstery which is:

- Non-flammable
- Bio-compatible
- Scratchproof

The features of upholstery together with high durability of the powder paint used for covering the metal elements will allow you to enjoy your Terapeuta Prestige Table in your practice.

There is possibility to buy couches also with upholstery made with 100% Polyurethane (Premium Upholstery or OMEGA Upholstery).

2. We care about your working comfort!

That’s why we invented the unique HalloTronic® System that enables high/low height adjustment via hallotrons without the use of mechanical switches. Thanks to HalloTronic® System you can choose the right height of your Prestige Table without effort and noise. This solution assures the comfort of patient and comfort of work. HalloTronic® System allows you to adjust height of your table with help of a foot bar from each side of your Prestige Table with just a slight movement of your foot. Enjoy the benefits of your Prestige Table and unique features of HalloTronic® System:

- High/low height adjustment via electronically controlled actuator
- No noise during lifting
- Long life span
- Reliability
- Operated with minimal force by foot
- High/low height adjustment via shifting of bar, easily accessible from each side of Prestige Table

Prestige Tables ensure smooth high/low height adjustment with a powerful electric actuator with lifting capacity up to 225 kg.
3. Wheeling systems tailored to your needs!

You can choose between F0 and F4 wheeling system. F0 system composed of 2 legs and 2 small wheels allows for moving of Prestige Table by lifting it from one side. The system is recommended for users who relocate their Prestige Table less frequently. F4 system composed of 4 directional castors with central brake allows you for a very easy and fast relocation of Prestige Table with or without a patient.

4. Easy adjustment as you wish!

Enjoy the easy adjustment of Prestige Table’s sections with the help of gas springs. Ergonomically located and designed release handles allow you to adjust sections of your Prestige Table the way you need practically without any effort and with one hand. Choose postural drainage (pivot) option to allow for easy positioning of the patient in order to perform better. You are able to adjust the postural drainage via an electronically controlled actuator by easily accessible two postural drainage control switches from both sides of your Prestige Table. Unique self-locking fold-down armrest (SmartS4Arms) for a very easy (one hand operated) adjustment.

5. Guarantee your practice the ultimate safety!

All Prestige Tables have an integrated electronic control unit allowing for height adjustment and adjustment of the postural drainage option with an indication of stand-by mode (green light) and Personal Authorization Safety System (PASS). Each Prestige Table is equipped with two magnetic safety keys (PASS Keys) in order to prevent unauthorized use of a table which may lead to severe accidents and compensation claims. What is more, all Prestige Tables have a special safety system that prevents table from folding down in case of power shortage or actuator damage.

Tables are manufactured in conformity with the certified quality management system: ISO 13485:2016.

6. The devil is in the details!

All details of Prestige Tables are designed to help you in your practice, with their functionality, durability and great design. You can take advantage of semi-automatic blocking/release system for fold-down side sections, comfortable armrests and ergonomic table top allowing for an easy access to the patient. Rubber feet increase the stability. The patients can feel comfort of the anatomical design of the face hole. We covered screws and other protruding elements with unobtrusive plastic covers.

7. We care about the production process!

All frames are welded automatically by high quality robotic system, which makes Prestige Tables very stable and resistant over years. Metal parts are being covered using the most advanced technological processes in a modern powder painting line. This means that you will enjoy the high quality of your Prestige Table for years and the maintenance (e.g. cleaning) will be a pleasure.
Terapeuta SCM-2
Prestige M-S2.F0/M-S2.F4

Features:
- 2-section massage table.
- Adjustable head section from -70° to +40° with a gas spring.
- Face hole in the head section with 2 removable face hole covers (round, crescent).
- Two-layer padding with upholstery in many colours.
- Powder coated, extremely stable steel frame.
- 2 side brackets for fixation of stabilization belts and elastic bands.
- Traction support sleeves.
- Personal Authorization Safety System with 2 safety magnetic keys.
- HalloTronic® System for electric high/low height adjustment from 47 to 95 cm with a lifting capacity up to 225 kg.
- Powder coated steel high/low height adjustment foot bar accessible from each side of the table.

- Powerful electric actuator
- Adjustment of postural drainage
- Breathing slot shaped to place the nose and chin
- Personal Authorization Safety System (PASS)
- Hallotronic® System for electric height adjustment
Massage tables

**Elemental**

**Types of base:**

**F0**
Composed of 2 legs with rubber feet and 2 small wheels for moving of Elemental Table by lifting it from one side. The system is recommended for users who relocate their Elemental Table less frequently.

[Image of Morse tables]

- Side brackets for stabilization belts
- Face hole with a plug
- SmartSAArms - self-locking fold-down armrest (one hand operated)
- Traction support sleeve
F0 + F2
Made on two small wheels and two feet, with an attached mechanism F2 of two swivel wheels, facilitating table transport.

- Hand controller
- Two-layer padding with upholstery in many colours
- Transport wheels
- Powerful electric actuator
- Electric height adjustment
- SmartS4Arms
- High/low height adjustment foot bar - option (replaces foot- or hand-operated controller)
Tables articulations:

**ICE S2.F0:**

- 40°
- 70°
- 46 cm 155 cm

**ICE S4.F0:**

- 46 cm 155 cm

**ICE E2.F0:**

- 85°
- 20°
- 69 cm 129 cm

(Hand-operated controller)

(Foot-operated controller)
Elemental Fire | Massage table

Tables articulations:

**FIRE S3.F0:**

- [Image of massage table]
- 46 cm, 54 cm, 101 cm dimensions
- 40°, 70°, 85° articulation angles

**FIRE S5.F0:**

- [Image of massage table]
- 46 cm, 54 cm, 101 cm dimensions
- 40°, 70°, 85° articulation angles

Additional accessories:

- **Lifter frame F2**
- **Horizontal folding barriers (E2 only)**
- **Folding barriers (E2 only)**
- **Paper holder type 3**
- **Foot- or hand-operated controller**
- **Wedges, bolsters, traction supports, belts**
Features:

- 2-, 3-, 4-, 5-section massage tables.
- Adjustable head, leg section with gas springs.
- Round face hole in the head section with 2 removable face hole covers (crescent, round).
- Self-locking fold-down armrest in head section (S4, S5) - SmartS4Arms (Smart Slide For Arms).
- Two-layer padding with upholstery in many colours.
- Powder coated, extremely stable two-colour steel frame.
- 2 side brackets for the fixation of stabilization belts.
- Electric height adjustment: 48-96 cm via hand-operated remote controller (with authorization) or foot controller to choose in standard.
- High/low height adjustment foot bar accessible from each side of the table - option (replaces remote controller).
- Lifting capacity up to 180 kg, working load up to 250 kg.
- Locking safety system on the remote controller.
- Basic wheeling system FO composed of 2 small wheels and 2 legs with rubber feet.
- Rubber feet with 1 cm height adjustment allowing for the levelling of the table.

**Massage tables** 23
Wheeling system:

F4
Composed of 4 liftable directional wheels with a central locking mechanism and 4 rubber feet.

Massage tables

Theraspace
Sections adjust control switches

High-quality, soft and pleasant to the touch polyurethane upholstery

Base combining wood and steel

F4 system central wheel locking mechanism lever

Release handle for gas spring system in leg section

High/low height adjustment foot bar

Directional wheels facilitating the table transport

3 YEARS of guarantee
Theraspace E-S2.F4 | Massage table

**Features:**
- 2-section massage table with long head section.
- High-quality, soft and pleasant to the touch polyurethane upholstery.
- Two-layer padding (2 cm foam 40 kg/cm² + 2 cm foam 44 kg/cm²).
- Stretched upholstery.
- Adjusting the angle of the head section with a gas spring (from -20 to 85°).
- Round breathing hole in head section with 2 types of plugs (crescent, round).
- Total length of the bed 202 cm.
- Maximum safe load of the table when raising-lowering the table ≤ 200 kg.
- Maximum safe working load of the table ≤ 275 kg.
- Safe electric actuator against crushing.
- High/low height adjustment foot bar (47-95 cm).
- F4 wheel system consisting of 4 liftable directional wheels with a central locking mechanism and 4 feet.
- A frame combining wood and steel.
- Protection against accidental start-up.
- Linak actuator.

**Additional accessories:**
- Paper holder
- Wedges.
- Bolsters, semi-bolsters.
- Horizontal folding barriers.
- Stools for therapist.

### Upholstery OMEGA:

- **Surface composition:** 100% Polyurethane
- **Backin composition:** 100% Polyester

**OM006 white**

**OM040 beige**

**OM315 blue**

**OM211 cement**

**OM076 olive grey**

**OM173 dark brown**

**OM225 black**

**OM157 forest**

**OM053 red**

**OM217 bordeaux**

**Durability and performance:**

- >500 000 cycles (intensive usage)

**Resistance to hydrolysis:** (8 years)

**High scratch resistance**

**Does not contain chemical solvents**

**Respects the environment**

Types of wheeling system:

F0
F0 system composed of 2 legs with rubber feet and 2 small wheels for moving of Safari Table by lifting it from one side. The system is recommended for users who relocate their Safari Table less frequently.

Massage tables
Safari

- Round face hole with a plug (round / crescent)
- Heating system (option)
- Adjustable head section from -70° to +40° with a gas spring
- Rotating slide-down armrest
- Traction support sleeve
- Personal Authorization Safety System (PASS)
- High / low adjustment foot bar (HalloTronic®)
- Powerful electric actuator
F4
System composed of 4 directional castors with central brake allows you very easy and fast relocation of Safari Table with or without a patient.

2 side brackets for fixation of stabilization belts and elastic bands

Two-layer padding with upholstery in many colours

Foot - operated lever of F4 system

Rubber foot with 1 cm height adjustment

WaveMotion Ellipse - gentle swing and rotation 360° in space.

This massage table is designed for performing manual massage treatments to treat and alleviate traumas or disabilities by restoring or improving the function of massaged tissues, organs, and systems. It enables the patient to take the correct position for massage treatment and to adjust height and/or position of the table sections.

Manual massage treatments using this table has a positive effect on i.a.:

- muscular tension disorders,
- spinal disc disorder,
- chronic back, low back pain,
- cystic fibrosis,
- pain in the quadriceps fatigue,
- tension-type headache,
- osteoarthritis of the hip joints.

**Features:**

- Versions depended on the therapist needs: 2 - or 4 - sections, upholstery padding of 4 or 8 cm thickness, width 75 cm or 80 cm (option).
- Easily adjustable sections: head section - via gas spring, arm rests – via rotating mechanism.
- Table top movement (360° rotation on a floating suspension and can be tilt both axes).
- Patient comfort: round face hole with a matching cushion.
- Two-layer padding (specially selected density of foams), with upholstery in many colours.
- Stable steel frame.
- Personal Authorization Safety System (option).
- Electric height adjustment via foot controller.

**Models available:**

- **S2**: 2-section with adjustable head section,
- **S4**: 4-section with adjustable head section and fold-down armrests.

**S2, S4 models:** the 40°/90° headrest allows for an ergonomic positioning in the prone position, but the head of patient/client can be gently supported in the supine position. The adjustment range of the headrest is from 40° positive to 90° negative. The headrest has a round face cradle with a matching cushion.

**Additional options:**

- Upholstery resistant to oils (Premium Upholstery).
- Built-in surface heating system of table top.
- Upholstery of 80 cm width.
- F2 lift (2 fixed wheels + 2 castors central lifted).
- Personal Authorization Safety System.
- Additional foot controller.
Massage table Nexus is designed for performing manual, massage treatments to treat and alleviate traumas or disabilities by restoring or improving the function of massaged tissues.

Features:
- 2- or 4-section massage table.
- Available in electric or hydraulic version.
- Electric height adjustment with a hand- or foot-operated controller or hydraulic height adjustment with a lever.
- Safe electric Linak actuator against crushing (only in electric version).
- Head section adjustment with a gas spring.
- Rotating slide-down armrests in 4-section table.
- Stable scissor base.
- Durable construction with lifting capacity up to 185 kg.
- Mobile - 2 wheels.
- Wide range of upholstery colours.

- Hydraulic high/low height adjustment (50-99 cm) via foot pedal accessible from both sides of the table (hydr. version).
- Powder coated steel high/low height adjustment foot bar accessible from each side of the table (el. version).
- Rubber feet with 1 cm height adjustment allowing for the levelling of the table.
- F4 wheeling system - dual-lever retractable castor wheeling system composed of 4 directional castors with central brake and 4 legs with rubber feet.
- Max. lifting capacity up to 200 kg.
- Two ways of frame painting: „white” or „twintone”.
- Max. working load up to 275 kg.

Additional option:

- Face hole.
- Built-in surface heating system of table top (only in el. version).
- Upholstery of 80 mm thickness.

Table articulations:

Additional accessories:

- Paper holder.
- Wedges.
- Bolsters, semi-bolsters.
- Stools for therapist.
Neurological rehabilitation table **Safari type Elephant** is designed for improving the motor skills of children with central nervous system impairment as well as Bobath and Vojta treatment.

**Features:**
- 2-section table (electric or hydraulic).
- Extra wide surface.
- Adjustable head section from 0° to +85° via 2 gas springs.
- Two-layer padding with non-flammable, bio-compatible and scratchproof upholstery in many colours.
- Powder coated, extremely wide and stable steel frame.
- Personal Authorization Safety System with 2 magnetic safety keys (only in el. version).
- HalloTronic® System for electric high/low height adjustment from 50 to 99 cm (electric version).
- Hydraulic high/low height adjustment (50-99 cm) via foot pedal accessible from both sides of the table (hydraulic version).
- Powder coated steel high/low height adjustment foot bar accessible from each side of the table (electric version).
- Rubber feet with 1 cm height adjustment allowing for the levelling of the table.
- F4 wheeling system - dual-lever retractable castor wheeling system composed of 4 directional castors with central brake and 4 legs with rubber feet.
- Max. lifting capacity up to 200 kg.
- Two ways of frame painting: „white” or „twintone”.

**Additional option:**

- Paper holder.
- Wedges.
- Bolsters, semi-bolsters.
- Stools for therapist.

**Ordering information:**
- **B-S2.F0/B-S2.F0-H:** 2-section electric/hydraulic neurological rehabilitation table with basic wheeling system composed of 2 small wheels and 2 legs with rubber feet.
- **B-S2.F4/B-S2.F4-H:** 2-section electric/hydraulic neurological rehabilitation table with dual-lever retractable castor wheeling system composed of 4 directional castors with central brake and 4 legs with rubber feet.

* max. lifting capacity
Chirospace | Chiropractic table

7-section chiropractic table Chirospace is a multifunctional equipment that ensures comfort of work for every therapist. Thanks to the ergonomic construction of the table top, with the possibility of lateral and vertical rotation of the foot section, the physiotherapist can adjust the initial correction of the patient’s spine, work on soft tissues, and perform any manual procedures.

**Features:**
- 7-section table.
- Head section divided into 2 parts (adjustable gap: 2-6 cm).
- 2 possibilities of head section adjustment: from -35° to +25° with a gas spring and additional adjustment from 0° to +18° (in opposite direction) via second gas spring.
- Rotating slide down armrests (adjustment range: up to -24 cm vertical).
- 2 possibilities of leg section adjustment: from 0° to -25° and side rotation from -9° to 9°.
- Electric high/low height adjustment via foot-operated controller at two sides of the table base.
- 3-layer padding 40 mm, with upholstery in many colours.
- Shift of shank support: 0-19 cm.
- Settings lock: rotation and shift.
- DROP option (2 cm).
- Second DROP option.
- Mechanism of dynamic force compensation - to minimize the patient's body weight resting on the leg section of the table via an offload and steering mechanism.
- 2 fixed wheels + 2 castors central lifted (F2 system).

Vertimo Classic/Hi-Lo

Tilting tables

Features:
- 1-section table.
- Electric actuator for tilting adjustment.
- Manual remote control for the adjustment of tilting angle with access authorization - with a special key placed in the remote control.
- Brackets for the attachment of fastening belts (standard accessories).
- Two-layer padding with upholstery in many colours.
- Powder coated, very stable steel frame.
- 4 large separately lockable castors (rolling and rotation lock).
- Emergency power supply battery.

Technical data:
- Footrest inclination angle [°]: -30/+15
- Number of sections: 1
- Dimensions [L x W] [cm]: 190 x 69
- Table top inclination angle [°]: 0-87 (+3)
- Height [cm]: 53 (fixed)
- Max. table load [kg]: 150
- Weight [kg]: 100
- Power supply [V/Hz]: 230/50/60

Additional accessories for Vertimo line:
- Adjustable support under the arm.
- Top of the small table.
- Stools for therapist.

Box dimensions: 220 x 85 x 80 cm  Weight: +50 kg

Tilting table Vertimo type Classic - very stable 1-section tilting table with electric adjustment of verticalisation.

Tilting table Vertimo type HI-LO - very stable 1- or 2-section tilting table with electric adjustment of verticalisation. Available in 3 versions:
- 1-section (UNO) tilting table,
- 2-section (DUO) tilting table,
- 2-section (DUO+) tilting table.

Features:
- 1 or 2-section table.
- 2 electric actuators – one ensures smooth tilting; the other one adjusts height.
- Electric height and tilting adjustment with manual remote control with the function of access authorization - authorization is done by a special key placed in the remote control.
- Two-layer padding with upholstery in many colours.
- Powder coated, very stable steel frame.
- 2 separately adjustable footrests.
- Brackets for the attachment of fastening belts (standard accessories).
- 4 large separately lockable castors (rolling and rotation lock).
- Tilt angle indicator.
- Emergency power supply battery (allows table lowering to min. height and return to horizontal position at power failures).
- Vertimo Hi-Lo DUO+ - table with faster actuator, quick release system (ensures fast table top lowering in emergency situations), bracket for leg belts.

Technical data:
- Number of sections: 1 or 2
- Dimensions [L x W] [cm]: 190 x 69
- Footrest length [cm]: 36
- Table top inclination angle [°]: 0-87 (+3)
- Head section inclination angle (2-section ver) [°]: 0-85
- Footrest inclination angle [°]: -30/+15
- Height adjustment (1-, 2-section ver./DUO+ ver) [cm]: 49,5-96,5/54-92
- Max. table load [kg]: 150
- Castors diameter [cm]: 10
- Weight [kg]: 130
- Power supply [V/Hz]: 230/50/60

Box dimensions: 220 x 85 x 80 cm  Weight: +50 kg

Small table  Arm supports
Pacific examination and treatment table is intended for standard examinations and procedures carried out in a wide scope, also used for simple medical activities. It is usually used in professional medical care facilities, i.e. hospital, clinic, as well as in doctor’s offices, treatment rooms or diagnostic laboratories.

Additional option:
- Integrated option of heating and LED lights.
- Central lift (2 castors central lifted).

Features:
- 5- or 7-section examination and treatment table with electric height adjustment by the means of a remote (controller).
- Head section adjustment by the means of gas spring.
- Head rest with shaped face hole with crescent plug.
- Foldable armrests lowered till 19 cm (only in 7 section table).
- Adjustment of: back, thighs, shanks sections by means of electric actuators.
- Multi-layered and very soft padding of 15 cm thickness with upholstery in many colours.
- Trendelenburg/reverse Trendelenburg position (15°).
- 2 wheels.

Examination and treatment table Kangoo model S3.C4 is intended for standard examinations and procedures carried out in a wide scope. Well-thought-out design, the possibility to adjust the angles of individual table sections and the stability of the product ensure that the patient is in a comfortable position for examination/treatment.

The table offers possibility of the Trendelenburg and reverse Trendelenburg position (18°).

**Features:**
- 3-section table, with a long head section.
- Adjustable head and foot section from -18° to 85° with a gas springs.
- Trendelenburg/reverse Trendelenburg.
- Face hole in the head section with a removable face hole cover.
- Two-layer padding with upholstery in many colours.
- Powder coated stable steel frame.
- 2 folding horizontal barriers on both sides; fold-down when table subjected to normal use activities.
- Electric height adjustment (47-92 cm) using manual remote control.
- Battery backup, cordless operation.
- Safety - table equipped with an access lock - safety key and automatic locking (to lock height adjustment function).
- 4 large 125 mm braked castors with foot locking mechanism.

**Technical data:**
- Height adjustment [cm]: 46-91
- Dimensions (length x width) [cm]: 189 x 72
- Weight [kg]: 116
- Max. lifting capacity [kg]: 250

Patient transport table **Safari type Buffalo** is designed for efficient transport in medical facilities. The table ensures easy operation for caregivers. The simple design provides reduced effort for medical personnel, improved quality of patient care and greater comfort for the patient.

**Features:**
- 2-sections transport table with a powerful hydraulic actuator.
- Adjustable, long head section from 0° to +70° with 2 gas springs.
- Removable mattress (60 mm thickness) made of high-quality polyurethane foam (40-45 kg/m³) and fabric in black colour; fabric features: flame retardant/mildew resistant/impermeable/easy to clean (can be washed in 60-90°C, resistant for disinfectants).
- Powder coated, very stable scissor steel frame.
- Hydraulic high/low height adjustment with a lifting capacity up to 200 kg.
- High/low height adjustment from 51 to 100 cm with foot pedal accessible from both sides of the table.
- 4 large 125 mm TENTE noiseless castors (total lock) which increase manoeuvrability; 1 electro-conductive (anti-static) wheel marked with a yellow-coloured border, to prevent electrostatic discharge.

**Table articulations:**

**Features:**
- Folding horizontal barriers on both sides
- Handles for transport on the head and leg sections
- Bumpers at the corners
- The table offers possibility of the Trendelenburg/reverse Trendelenburg position (-10°/+10°).
